

**Facilities in the Dedicated Covid Health Centre established by the
Cantonment Board St. Thomas Mount**

The Cantonment hospital at St.Thomas Mount has been converted to DCHC (Dedicated Covid Health Centre - For moderate symptomatic and patients requiring Oxygen).

The hospital is equipped with 3 B type cylinders, 4 D type cylinders and 7 Oxygen concentrators to treat the patients who had undergone testing in the Triage centre Chengalpet and are referred by the District Admin.

The DCHC also serves the the Covid suspects, Patients and General Public with the following facilities as listed below:

1. The DCHC is a designated Covid Vaccination centre.
2. Also RT-PCR testing is done in the centre for the suspected people.
3. Dedicated Fever clinic is set up to treat and test patients.
4. The DCHC is equipped with 10 beds with Oxygen facility to treat Covid patients.
5. 1 no of Ambulance with Oxygen facility is owned by the Board .
6. The patients are not charged for the treatment and provides the prescribed diet for the Covid IPD patients at free of cost.
